

NFPA 1851 PPE Course

Location: San Diego Fire-Rescue Department Training Facility
2580 Kincaid Rd, San Diego, CA 92101 (*Classroom 2*)

Date & Time: October 10th & 11th, 2023, from 0800- 1600 hours

Program: This NFPA 1851 class will provide the student insight into your firefighter Personal Protective Ensemble (PPE) selection, care, and maintenance. The course will also detail information about proper tracking of PPE and the help of developing an NFPA 1851 compliant program. This class will combine hands-on training/demonstration and classroom presentations.

Student Instructions: All students are required to bring a clean set of structural firefighting turnouts on both days of class. All attendees will receive a certificate at the end of the course certifying they have met the requirements for NFPA 1851 to clean and inspect PPE.

Instructors:

Jim Evans: Former NFPA 1851 SME & Instructor at Texas A&M (TEEX), Solutions Safety

Bruce Varner: Retired Fire Chief of Santa Rosa, OSHA General Industry and FDSOA Instructor

Kyle O'Neill: SDFD Cancer and Health Coordinator, FCSN Assistant State Director, FIRESCOPE Cadre
